

# Welcome to FlyHealthy@SEA

Seattle-Tacoma International Airport (SEA) is preparing for the gradual reopening of the economy. We are committed to the health and well-being of passengers, visitors, and workers as part of [FlyHealthy@SEA](#).

Most passengers continue to follow guidance to avoid non-essential travel. Right now, our airport is operating with just 14 percent of our departing passenger volume compared to last year.

We recently launched a [public dashboard](#) built to provide local governments and industries with key indicators to track the recovery at SEA. The airport economy provides jobs, sales, and tax revenue for our whole region, and key data on the weekly dashboard gives valuable, real-time activity indicators.

This weekly update summarizes actions by the Port of Seattle and our partners for FlyHealthy@SEA. Information changes rapidly. Bookmark our [website](#) and keep up on social media with #FlyHealthySEA.

 **In case you missed it!**

SEA Airport continues to innovate with options for seamless, contact-free travel with the debut of [Pre-Booked Parking](#). Travelers can book parking prior to airport arrival as a convenient, cashless way to pay via credit/debit card or ApplePay. With physical distancing practices in place, travelers can drive their own vehicle and scan the booking QR code on their phone to enter and exit the garage. SEA's lowest rates are available online with Pre-Booked Parking for up to 25 percent off on drive-up parking rates.

## FlyHealthy@SEA by the Numbers

- Added almost **3,000 signs and floor decals** with reminders for physical distancing
- Installing **180 plastic protective barriers** that buffer travelers and airport employees (89 percent completed)
- **5,720 hours spent cleaning and disinfecting** the buses and terminal at SEA each week, **97,240 total hours since February**
- Spritzed, sprayed, and dispensed
  - More than **1,010 gallons** of hand sanitizer
  - Over **4,500 ounces** of disinfecting spray
  - **1,135 containers of sanitizer wipes** in response to COVID-19
- Installed over **250 hand sanitizer stations** throughout the terminal

## Preparing to Travel — Recovery Ready

The next time you visit SEA, your experience will look and feel different, including:

- Passengers, visitors, and workers are required to wear face coverings in the public areas of SEA
- Signage for reminders and spacing to honor physical distancing
- Plastic protective barriers that buffer interactions between travelers and airport employees
- Frequent disinfection with medical-grade cleaning products
- Added over 250 hand sanitizer stations throughout the terminal for your use. Download the SEA App with our interactive map of hand sanitizer locations.
- Each dining and retail tenant at SEA [developed plans](#) detailing procedures for safe operations such as physical distancing requirements, sanitation and personal hygiene protocols, personal protective equipment, and how to provide services while limiting close interactions.

This is just the beginning. We are hard at work planning for a busier terminal and better times ahead.

## Help Stop the Spread – Passenger Actions

Passengers, employees, and the community can help stop the spread of COVID-19. We ask you to follow these guidelines to protect yourself, your fellow travelers and airport employees, including:

- Avoid non-essential travel
- Stay home when you are sick. And get better soon!

Maintain your distance and stay six feet (or two meters) apart from others

Practice physical distancing

- No more than four in an elevator,
- Using every fourth step on escalators

Wear face coverings to help slow the spread of germs

Wash your hands often with soap and water for at least 20 seconds

Avoid touching your eyes, nose, and mouth
