A New Normal: FlyHealthy@SEA

The COVID-19 global pandemic forced massive shifts in our lives. We now expect different behavior from each other and new protocols from businesses to protect our health.

We're living in a new normal. Your safety, health and well-being are our priority, always. As part of *FlyHealthy@SEA*, a few things will be different the next time you travel. We require face coverings, escalated cleaning and disinfecting, implemented physical distancing, and added touchless technologies.

Our team at Seattle-Tacoma International Airport (SEA) is ready for the incremental increases in air travel now and to come. We forecast being down 61 percent this year, but we know a busier terminal and better times are ahead.

Face coverings are required at SEA

We can help everyone stay healthy by wearing a face covering or mask. We know you have loved ones to visit, business to do, and trips of a lifetime to experience. Help stop the spread and mask up! Thanks to all employees and travelers that are working to protect the health each other — we're in this together.

👉 In case you missed it!

International Travel and FlyHealthy@SEA

Prior to the COVID-19 global pandemic, SEA was a destination for adventure and warm fuzzies. We were the bon voyage and the welcome home.

Most passengers continue to follow guidance to avoid non-essential travel, but when the time is right, *here* is the latest international travel information to prepare or plan for a trip.

Temporary travel restrictions remain with entry limited to U.S. passport holders and permanent residents flying into the U.S.

Preparing to Travel — Recovery Ready

The next time you visit SEA, your experience will look and feel different, including:

- Passengers, visitors, and workers are required to wear face coverings in the public areas of SEA
- Signage for reminders and spacing to honor physical distancing
- Plastic protective barriers that buffer interactions between travelers and airport employees
- Frequent disinfection with medical-grade cleaning products
- Added over 250 hand sanitizer stations throughout the terminal for your use. Download the SEA App with our interactive map of hand sanitizer locations.
- Each dining and retail tenant at SEA *developed plans* detailing procedures for safe operations such as physical distancing requirements, sanitation and personal hygiene protocols, personal protective equipment, and how to provide services while limiting close interactions.

FlyHealthy@SEA will continue to evolve as travelers return to the airport.

Help Stop the Spread – Passenger Actions

Passengers, employees, and the community can help stop the spread of COVID-19. We ask you to follow these guidelines to protect yourself, your fellow travelers and airport employees, including:

- Avoid non-essential travel
- Stay home when you are sick. And get better soon!
- Wear face coverings to help slow the spread of germs
- Practice physical distancing
  - Maintain your distance and stay six feet (or two meters) apart from others
  - No more than four in an elevator
  - Using every fourth step on escalators

- Wash your hands often with soap and water for at least 20 seconds
- Avoid touching your eyes, nose, and mouth
