

AT SEATTLE-TACOMA INTERNATIONAL AIRPORT (SEA), THE HEALTH AND SAFETY OF OUR TRAVELERS, VISITORS AND STAFF IS OUR MOST IMPORTANT PRIORITY.

Our janitorial partner, C&W Services, is elevating safety and hygiene through increased cleaning, sanitizing and disinfection protocols as recommended by the Centers for Disease Control (CDC) and the World Health Organization (WHO). The cleaning program includes work with Diversey, a leading provider of cleaning products, to provide EPA-approved disinfectants for use against the virus that causes COVID-19.

Please do your part to increase safety for everyone by masking up at SEA, safe physical distancing, washing your hands often, and using the hand sanitizing stations throughout the airport.

Thank you!
