**On the cover:** Terrance is a laborer apprentice and graduate of the PACT pre-apprenticeship program. Prior to working in construction, Terrance was homeless and struggled to find work. He found out about PACT from friends. Once he signed up, PACT helped him get his life back. He got his driver's license and earned his high school diploma. Terrance now makes over \$31 an hour plus benefits working for Jansen Inc., has an apartment and provides for his family; they no longer rely on welfare or food banks. Terrance's advice to others is to go for it – you have nothing to lose!

Learn more about other pathways into construction on Apprentices in Action (page 3).

# Introduction

Are you looking for a career instead of a minimum-wage job? Are you considering a career in construction? Then you have come to the right place. Keep reading.

We need trained professionals to build structures like our homes, offices, high-rises, roads and bridges. These projects are essential to our everyday life and need hundreds of workers trained in more than 20 different building trades. Building trades (also called crafts) include laborers, ironworkers, cement masons, carpenters, heavy equipment operators, pipe fitters, sheet metal workers, painters and many more. This book will help you get started down the pathway to becoming one of those skilled professionals with a high-paying career in the building trades.

You do not need construction skills to get started; the professionals will teach you what you need to know. But there are some things you will need right from the start to succeed:

- Work ethic:** Be open to learn, love hard work and strive to be your best.
- Reliable:** Show up and work hard every single day, no matter what.
- Early:** Always be on-site a half-hour early to prepare for work.
- Learn:** Listen, pay attention and follow directions.
- Hands-on:** Learn by doing, solving problems and overcoming challenges.
- Physical:** Ready for hard work, heights and cold, wet weather.
- Drug-free:** Construction sites can be dangerous. Everyone must be alert.
- Safety:** Pay attention. Speak up. Wear safety gear at all times.

## Pre-Apprenticeship

Pre-apprenticeships are hands-on training programs that help prepare people for entry and success in the building trades. These programs provide construction training and education, in addition to helping with driver's licensing, transportation, child care, budgeting, etc. The best part is if you show up and bring your best every day, they will help you get into a paid apprenticeship program.

If you already have your high school diploma/GED, driver's license and a proven work ethic, you can apply directly to an apprenticeship in the building trade of your choice.

## Apprenticeship

Once you are in an apprenticeship training program, you are working on a construction site, learning your trade and getting paid. You EARN while you LEARN.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes. Apprentices get regular pay raises along the way, plus benefits and a pension.

You do not need a clean record, a college degree or past experience. You just need to apply and try out for one of the pre-apprenticeship or apprenticeship training programs in this book. These training programs need residents of King, Pierce and Snohomish counties, veterans, women and people of color.

A career in the building trades is important, fast-paced work that is physically and mentally challenging. At the end of each day, you will be very proud of what you have learned and what you have built. Most importantly, you will be able to support yourself and your family for a lifetime.

## Experienced Workers

Candidates with five or more years of experience in a specific trade should contact the union hall directly:

[www.seattle.gov/Documents/Departments/FAS/PurchasingAndContracting/Labor/SBCTC-Affiliates.pdf](http://www.seattle.gov/Documents/Departments/FAS/PurchasingAndContracting/Labor/SBCTC-Affiliates.pdf)

# Ready for a career in construction?

1. Start free training today!
2. Earn living wages + family benefits + retirement plan
3. Questions? <http://bit.ly/apprenticeshipguidebook> or 206-684-7907

## Career Advancement

- Superintendent
- Trainer
- Safety inspector
- Business owner

More experience, training and leadership skills lead to higher wages and dependable retirement.

ENTER HERE

## Journey Level

- Must complete apprenticeship
- Earn \$40+ /hour
- Benefits and raises
- Master your craft
- Train/mentor apprentices
- Lead crews/become foreman
- Earn high-level certifications

ENTER HERE

## Apprenticeship

- No experience required
- Start at about \$23/hour
- Benefits and regular raises
- Complete in about 4 years
- On-the-job training
- Hard physical work
- Classes required

ENTER HERE

- Must have:**
- ID and be 18+
  - Driver's license
  - Clean drug test
  - Diploma or GED
  - Social security card or I-9 verification
- Helps to have:**
- Experience with tape measure, hand tools, and physical work

## Pre-Apprenticeship

- FREE training
- No experience required
- 3 or 6-month options
- Receive support with diploma/GED, driver's license, transportation, tools, and more
- Earn industry certifications
- Learn construction math

START HERE

10+ Years

5+ Years

0-5 Years

0-2 Years

11/26/19

Enter at your level

Earn while you learn. Apprentices who complete their training become journey-level workers.

When you graduate they will connect you with an apprenticeship program.

# Apprentices in Action

## David

David is an ironworker apprentice and graduate of ANEW's PACE pre-apprenticeship program. When David started the PACE program, he knew he wanted to pick a trade that closely resembled his previous career in Nigeria. After PACE introduced him to the construction trades, David decided to become an ironworker. Two years into his apprenticeship, David earns about \$44 an hour plus benefits, and is already planning on buying his own house. David advises people interested in construction to start with pre-apprenticeship, where they will learn career options and tips for success in the industry.

## Rebecca

Rebecca is a carpenter apprentice and graduate of ANEW's Trades Rotation Program. Before ANEW, Rebecca worked dead-end jobs, trying to make ends meet. After seeing a friend succeed in construction, Rebecca signed up at ANEW. At ANEW, Rebecca became part of a sisterhood that will last her whole career. After graduation, ANEW paid her initiation fees to enter the union. As a single mom earning \$29 an hour plus benefits, she can now support her children without assistance. Rebecca says apprentices should learn from their mistakes. Don't be hard on yourself! Be prepared for long commutes and work days. Practice getting up early now. You will be sore for a while after you start. Just keep in mind that it gets easier. Sticking with it pays off!

## Randy

Randy is an operating engineer apprentice and graduate of ANEW's PACE pre-apprenticeship program. Before entering the trades, Randy struggled with addiction, and recalls it consuming everything in his life, including his relationships with loved ones. By the time Randy was 24, he'd been in and out of jail and found himself facing prison time. After prison, Randy lived in a halfway house, where he learned about PACE. He was accepted into the program and began learning about different trades. He found his home with the operating engineers, and PACE helped him get his driver's license so that he'd be successful in his chosen trade. Randy recalls once feeling like, "I can't get a job; no one wants to hire a convicted felon." Now Randy has a construction career, working for Ohno-Touchdown Joint Venture and earning over \$31 an hour plus benefits.

## Aubrey

Aubrey is an ironworker apprentice and graduate of Trades Related Apprenticeship Coaching (TRAC). Aubrey learned about TRAC in prison, started the program, and graduated at the top of her class. The day she was released, she signed up for the Ironworkers Pre-Apprenticeship program to get trades-specific experience. She then began her apprenticeship, and now makes over \$30 an hour, plus benefits. With a construction career underway, Aubrey and her wife are looking into buying a home and starting a family. With the help of TRAC and the Ironworkers Pre-Apprenticeship program, Aubrey has accomplished more than she ever thought possible in the past year, and looks forward to her future.

# Apprenticeship vs. College

## Apprenticeship

Get paid for on-the-job training.

## College

Pay for classroom learning.

### EARNINGS

\$18-\$24/hour to start

# Support Services

## For Pre-Apprentices and Apprentices

### Apprenticeship Opportunities Project (AOP)

#### A Program of ANEW

AOP helps people prepare for, apply to and complete construction apprenticeship. AOP services include resume building, interview preparation, application completion, counseling, mentorship and support services. Support services assist with the financial barriers keeping someone from either entering or continuing in apprenticeship.

Pre-apprentices and apprentices are eligible if they are:

- A Washington state resident.
- Low-income.
- Drug-free.
- Able to obtain a Washington state driver's license.

#### To Apply

Visit [www.anewaop.org](http://www.anewaop.org) for more information

Call 206-381-1384 and select the option for support services

#### Contact

206-381-1384

[info@anewaop.org](mailto:info@anewaop.org)

550 SW 7th St., B305, Renton, WA 98057

[www.anewaop.org](http://www.anewaop.org)

### Washington State Department of Labor and Industries (LNI)

LNI and the Washington State Apprenticeship and Training Council oversee pre-apprenticeship and apprenticeship programs that promote a highly skilled and diverse construction workforce: [www.lni.wa.gov/licensing-permits/apprenticeship/become-an-apprentice](http://www.lni.wa.gov/licensing-permits/apprenticeship/become-an-apprentice)

### Urban League of Metropolitan Seattle (ULMS)

ULMS is dedicated to assisting and preparing individuals to enter pre-apprenticeship and apprenticeship programs and access work in construction. ULMS can assist with applications and collection of required documents needed to enter a training program. ULMS's goal is to provide wraparound support services for clients and help them become successful apprentices, with the long-term goal of reaching journey level. Services include:

- Credit counseling classes.
- Driver's license assistance.
- First-time homebuyer's class.
- Financial assistance for initiation fees, union dues, tools, work clothes, transportation and rent.

#### To Apply

Visit [www.urbanleague.org/priorityhire](http://www.urbanleague.org/priorityhire) to register

#### Contact

206-461-3792 ext. 3004

[alawton@urbanleague.org](mailto:alawton@urbanleague.org)

105 14th Ave., Suite 200, Seattle, WA 98122

[www.urbanleague.org](http://www.urbanleague.org)

### Washington State Department of Veterans Affairs (WDVA)

The WDVA supports all veterans, transitioning service members and their families find living-wage careers through GI Bill-approved apprenticeship programs. Use the resource guide to find information on state-registered apprenticeship programs and determine your approximate wage with your GI Bill benefits: [www.wacareerpaths.com/apprenticeships/](http://www.wacareerpaths.com/apprenticeships/)

## Alternative Solutions

The Department of Social and Health Services (DSHS) is redesigning service to customers through Alternative Solutions. There are new grants, programs and services available to pre-apprentices and apprentices to ensure they have a successful and sustainable construction career.

Alternative Solutions assists with:

- Setting reasonable child support payments.
- Reinstating driver's licenses.
- Connecting people to services for legal issues, parenting plans, housing, mental health, immigration, child care and more.

The [Alternative Solutions](#) program includes a comprehensive, user-friendly database called the [DSHS Community Resource Directory](#) with over 4,500 statewide community-based organizations providing barrier removal services.

DSHS created this database to ensure that people have the support they need to succeed.

# RPAC | REGIONAL PRE-APPRENTICESHIP COLLABORATION

The Regional Pre-Apprenticeship Collaboration (RPAC) is a workforce development partnership that builds strong, sustainable pathways into construction careers, especially for women and people of color.

RPAC is a working group of construction industry professionals. Members include construction pre-apprenticeship and apprenticeship programs, contractors, government agencies, community organizations and school district career and technical education (CTE) teams.

RPAC is committed to creating a coordinated, regionwide pre-apprenticeship system through shared outreach, quality training, retention services and policy work that help people get in, stay in and complete apprenticeship.

## Interested in attending?

RPAC welcomes anyone interested in creating a strong construction worker pathway.

Date: Last Friday of each month  
Time: 8 a.m. to 10 a.m.  
Location: South Seattle College  
Georgetown Campus  
6737 Corson Ave. S, Building C, Room 122  
Seattle, WA 98108

Check the RPAC website for specific meeting information: [www.psrpac.org](http://www.psrpac.org)

## Contact

# Pre-Apprenticeship

---

Pre-apprenticeships are hands-on training programs that help prepare people for entry and success in the building trades. These programs provide construction training and education, in addition to helping with driver's licensing, transportation, child care, budgeting, etc. The best part is if you show up and bring your best every day, they will help you get into a paid apprenticeship program.

If you already have your high school diploma/GED, driver's license and a proven work ethic, you can go directly to the apprenticeship section and apply to the building trade of your choice.

# ANEW

## PACE & Trades Rotation Program (TRP) — Programs of ANEW

Multiple trade skills taught in construction shop  
Employment skills (resumes, interviews, etc.), life skills (budget, teamwork, etc.) and construction math taught in classroom  
Industry certifications offered  
TRP offers co-ed and female-only cohorts

Ten-week training programs, three days a week, with field trips to apprenticeship programs and construction sites  
May qualify for college credits (if eligible, tuition assistance available through BFET, TANF, RISE and WIOA)

### Minimum Qualifications:

18+

Clean drug test

Desire a career in construction

### Preferred Qualifications:

High school diploma or GED (or able to obtain by end of program)

Driver's license (or able to obtain by end of program)

### Application Process

Attend orientation (see schedule at [www.anewaop.org/events](http://www.anewaop.org/events))

Bring to the information session:

Driver's license

Social Security card

### Cost

Training is free

### Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

### Contact

# Carpenters Pre-Apprenticeship

## Northwest Carpenters Institute (NWCi)

Fast-paced three-week, trade-specific pre-apprenticeship program for carpentry

Learn basic tool skills

Includes a strong basic on safety

Teaches the latest industry trends

Graduates have preferred entry into carpenters apprenticeship

### Minimum Qualifications:

18+

17 years old  
may also apply  
with parent's  
permission

### Preferred Qualifications:

Proficient in  
math

Confident  
reading a tape  
measure

Familiar with  
hand and  
power tools

Ability to follow  
instructions and  
work in a team  
environment

### Application Process

Contact the program staff for more information on how to apply to the pre-apprenticeship program

### Cost

Training is free

### Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

# Cement Masons JATC Pre-Apprenticeship

Two-plus weeks of unpaid, pre-employment training  
Includes hands-on projects

Direct entry into Cement Masons Apprenticeship  
JATC and member of Local 528 Cement Masons upon  
successful completion

## Minimum Qualifications:

18+

Driver's  
license

Second form  
of ID (Social  
Security card or  
passport)

High school  
diploma  
or GED

Be able to pass a drug  
test administered on  
the first day of pre-  
employment training

## Application Process

Attend a required one-day selection event where you will compete for a position based on punctuality, mental and physical abilities, a good attitude and strong work ethic

Applications accepted all year long, though applications should be in by the beginning of March to be eligible for spring training opportunities

Pre-employment training takes place in the spring

Pick up application in person or complete online:

[www.opcmia528.org/apprenticeship](http://www.opcmia528.org/apprenticeship)

Submit documentation of:

Minimum qualifications

Education

Training

Work experience

Be prepared to pay a \$150 initiation fee if accepted into the apprenticeship

## Cost

Training is free

Those who qualify also get assistance with necessary tools and support paying the initiation fee

## Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

# TRAC

## Trades Related Apprenticeship Coaching

For women incarcerated at Washington Corrections Center for Women and Mission Creek Corrections Center for Women

Multiple trade skills taught in construction shop

Employment skills (resumes, interviews, etc.), life skills (budget, teamwork, etc.) and construction math taught in classroom

Industry certifications offered

16-week training program

Offered quarterly

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

(Participant's driver's license must be current or obtained on release)

Clean drug test

Participants must be major-infraction-free for six months

Participants must have 5-15 months of incarceration remaining

## Application Process

- Contact unit counselor to apply
- Complete screening by correctional program manager
- Pass physical and math assessments
- Participate in formal interview

# YouthBuild

## YouthCare's YouthBuild Seattle

6-month training program

GED preparation courses and testing

Multiple trade skills taught (including carpentry, electrical and plumbing)

Employment skills, life skills and construction math taught in classroom

Two terms college credit and 3-5 industry certifications offered (Forklift, Flaggers, OSHA 10)

Intensive case management services offered (substance abuse support, housing assistance, etc.)

## Minimum Qualifications:

18-24

Low  
Income

No high school  
diploma  
or GED

Driver's  
license not  
required

Diploma and GED holders accepted on a case-by-case basis

## Application Process

Attend an information session. Call to confirm date and time.

Mondays and Wednesdays, 9 a.m. to 12 p.m.

Tuesdays and Thursdays, 12 p.m. to 3 p.m.

Complete application

Provide copy of ID and birth certificate or Social Security card

Provide proof of BFET eligibility (verification of food stamps or subsidized housing)

Take a baseline GED exam

Complete a pre-program interview

Complete two-week physical try-out

## Cost

Training is free

In-program certifications and exams (such as GED) are free

Biweekly student stipends and other incentives (such as ORCA card) offered

## Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation (ORCA card provided)

# Union Apprenticeship

---

Once you are in an apprenticeship training program, you are working on a construction site, learning your trade and getting paid. You EARN while you LEARN.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes. Apprentices get regular pay raises along the way, plus benefits and a pension.

You do not need a clean record, a college degree or past experience. You just need to apply and try out for one of the pre-apprenticeship or apprenticeship training programs in this book. These training programs need residents of King, Pierce and Snohomish counties, veterans, women and people of color.

# Boilermakers 104

Represented by the International Brotherhood of Boilermakers Local 104

Boilermakers are complete metal fabricators in shops and shipyards. They work with steel, aluminum and other metals to fabricate boilers off-site that get

delivered to construction sites. While they weld ships, bridges, garbage dumpsters, etc., their focus is mainly on the maritime industry.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license or other state- or federal-issued ID

Clean drug test

## Application Process

Applications accepted Wednesdays from 9:30 – 11 a.m.

Complete an assessment

Once placed in the candidate eligibility pool, you may be called in for an interview

Candidates in the eligibility pool may seek their own employment as an apprentice

## Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

## Wage Range

Starting Apprentices    **\$25.45**    Total (Wage + Benefits)

Journey Workers        **\$36.36**    Total (Wage + Benefits)

# Boilermakers 502

Represented by the International Brotherhood of Boilermakers Local 502

Boilermakers are complete metal fabricators on construction sites. They work with steel, aluminum and other metals. Their work includes new construction, repair and maintenance of things like

boilers, cranes, tanks, pipelines, cable-ways, pressure vessels and structural frames. They rig and lift loads with rope, steel cables and chains, operate power tools and may work in extreme temperatures.

## Minimum Qualifications:

18+

## Application Process

Applications are handed out at the training office Monday to Friday from 8 a.m. - 5 p.m.

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

## 2019 Hourly Wages

# Bricklayers and Allied Craftworkers

Represented by the Bricklayers and Allied Craftworkers (BAC) Local 1 WA/AK Apprenticeship and Training - Western Washington Masonry Trades

Masonry trades include bricklayers, tile setters, pointer-cleaner-caulkers, refractory, marble setters, terrazzo workers and finishers. Professionals in each craft work inside and out at substantial heights and ground level.

Most of their work involves finishes; some is structural, and all crafts require attention to detail and creative problem-solving skills. Their beautiful, finished surfaces last for years.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Social Security card or I-9 verification

Clean drug test

## Application Process

- Application must be filled out and turned in on the same visit
- Bring driver's license, high school diploma or GED and Social Security card
- Qualifying veterans may use their GI bill
- Pass drug test
- Complete pre-job training
- Pass basic math test

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

## 2019 Hourly Wages

	Bricklayers, Refractory, Marble Masons, Pointer-Cleaner-Caulkers	Tile Setters, Terrazzo Workers, Marble Finishers

# Carpenters

Represented by the Pacific Northwest Regional Council of Carpenters (PNWRCC) Locals 30, 41, 70, 96, 129, 196 and 816

Multiple training programs are offered within the carpenters training program. General carpenters lay out, measure, cut, erect and join materials. Interior systems professionals install acoustical ceilings, metal framing and wall partitions. Millwrights install and repair machinery like compressors, turbines and monorails. Piledrivers drive piling into the earth

to ensure buildings are stable. Scaffold erectors build and maintain scaffolding. Shipwrights repair and renovate boats. Trade show workers and floor coverers are also carpentry crafts. Insulators insulate buildings with vapor barrier, spray foam insulation, and install batting. This is a two-year program.

## Minimum Qualifications:

18+

Or 17 years old with written parental consent

Driver's license

Clean drug test

## Application Process

Fill out application - online at [www.nwci.org](http://www.nwci.org)

Attend 8-hour trade orientation, including hands-on assessment and math exam

Attach valid and current:

Résumé

Training documents (pre-apprenticeships, classes, certifications)

Work experience documents (check stubs, W-2s)

Military documents (DD214, ID Card)

## Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

## 2019 Hourly Wages

<b>Starting Apprentices</b>	\$27.55	Wage
	\$16.52	Benefits
	<b>\$44.07</b>	<b>Total</b>

<b>Journey Workers</b>	\$45.92	Wage
	\$16.52	Benefits
	<b>\$62.44</b>	<b>Total</b>

Basic skills and wages vary by carpentry craft.

# Cement Masons

Represented by the Cement Masons and Plasterers of Washington Local 528

Cement masons smooth and finish surfaces of poured concrete floors, walls, sidewalks, curbs of large industrial/commercial projects to specified textures. They use hand tools, power tools, floats, trowels and screeds. They may be involved in forms or repair of forms if only one board high, or minor repair of rebar tie down. They are involved in pours that require raking,

shoveling, troweling and bull float spreading for up to 6 or more hours at a time on large projects. They smooth and shape surfaces to work order, and finish concrete surfaces using power trowels or trowels in both hands before concrete hardens. They sand, grind, and make surfaces smooth with power grinders or chisels and hammers.

## Minimum Qualifications:

18+

  
High school diploma or GED

  
Driver's license

  
Second form of ID (Social Security card or passport)

  
Clean drug test (administered by the apprenticeship during orientation)

## Application Process

Pick up application in person or complete online: [www.opcmia528.org/apprenticeship](http://www.opcmia528.org/apprenticeship)

Submit documentation of:

- Minimum qualifications
- Education
- Training
- Work experience

Attend a required one-day selection event where you will compete for a position based on punctuality, mental and physical abilities, a good attitude and strong work ethic

Selected candidates without experience must complete two-week pre-construction training

Be prepared to pay a \$150 initiation fee if accepted into the apprenticeship

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

# Glaziers

Represented by the International Union of Painters and Allied Trades (IUPAT) Local 188

Glaziers, architectural metal and glass workers are responsible for cutting, installing and replacing all types of glass and architectural metal. Glaziers work in commercial, industrial and residential buildings —

from skyscraper sides, storefronts, automatic doors to residential windows and bath enclosures. Glaziers are in good shape, have a good sense of balance and solve math problems quickly.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Proof of auto insurance or insurability

Clean drug test

Score 80% or higher on the FTINW math assessment test

## Application Process

- Apply at training office
- Applications available year-round by appointment only
- Applicants placed in a pool of eligible candidates
- Applicants must contact training office on or before the first business day of every month to remain on list

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation
- Be able to work at heights

## 2019 Hourly Wages

<b>Starting Apprentices</b>	\$23.67	Wage
	\$13.42	Benefits
	<b>\$37.09</b>	<b>Total</b>
<b>Journey Workers</b>	\$47.34	Wage
	\$19.17	Benefits
	<b>\$66.51</b>	<b>Total</b>

# Heat & Frost Insulators

Represented by the International Association of Heat & Frost Insulators and Allied Workers Local 7

Heat and frost insulators will become skilled in the installation of mechanical insulation, fire stopping,

asbestos and lead mitigation or abatement, and sound-proofing materials.

## Minimum Qualifications:

18+

Proof of dependable transportation (vehicle registration, proof of insurance, note from owner allowing usage)

Driver's license

Social Security card (or other forms of ID to fulfill I-9 requirements)

Passing a math test with 70% minimum at time of application

Clean drug test

Helpful courses include:

- Math
- Mechanical drawing
- Blueprint reading
- Metal and electrical shop work

## Application Process

Must apply in person

Bring:

- High school diploma/GED if applicable
- Letters of reference
- Resume
- Job-related certifications
- Training certifications

Apprentices must attend all training classes

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

## 2019 Hourly Wages

	Heat & Frost Insulators	Firestop Containment Workers	
<b>Starting Apprentices</b>	\$23.48	\$24.60	Wage

# Ironworkers

Represented by Pacific Northwest Ironworkers Local 86

Ironworkers erect the structural framework for high rise buildings, bridges, etc. They place reinforcing steel in concrete forms for roadways, foundations and structures. Welding, ornamental, rigging and

machinery moving are also a part of this trade. Ironworkers perform rigorous manual labor and work at high elevations.

## Minimum Qualifications:

18+

Driver's license

Social Security card or proof of legal employment status

Vehicle registration

Proficient in English (ability to read, write and speak English)

Clean drug test

## Application Process

Applications are accepted year-round, Monday - Friday, from 7 a.m. - 3 p.m.

Applications must be filled out and submitted in person

Applicants must provide original documents:

- Driver's license
- Social Security card or proof of legal employment status
- Proof of dependable transportation
- Résumé
- DD214 (veterans only)

Applicants wishing to receive extra points can provide the following documents at time of application:

- High school diploma/GED
- College transcripts
- Trade school transcripts
- DD214
- W-2s, pay stubs of previous work experience in construction or an ironworker-related trade
- Professional letters of recommendation
- Welding certifications

Applicants must keep their address and phone number current

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

## 2019 Hourly Wages

<b>Starting Apprentices</b>	\$25.77	Wage
	\$11.84	Benefits
	<b>\$37.61</b>	<b>Total</b>

# Laborers

Represented by the Laborers International Union of North America Locals 242, 252 and 292

Laborers prepare construction sites by eliminating hazards, digging trenches, drilling, lagging, tunneling, laying pipe, performing traffic control, laying asphalt on heavy highway projects, mixing and placing concrete and setting bracing to support excavations. They load, unload and distribute materials. They also support

many other craft workers with fireproofing, mason tending, carpentry tending, asbestos, demolition, shotcrete and hazardous waste removal. Positions include concrete foremen, pipe foremen, safety supervisors, hazardous material supervisors and asbestos supervisors.

## Minimum Qualifications:

18+

Driver's license

2nd form of ID (Social Security card or passport)

Clean drug test

High school transcript that shows completion of 10th grade, GED, high school diploma, or equivalent from other country

## Application Process

- Complete application
- 4-5 hour orientation (call for dates, times and location)
- Take assessment test: construction, hand and power tools, machinery, safety, reading and math
- Submit documentation of achievement for extra credit:
  - Education
  - Training
  - Work experience certification (pay stubs, W-2s)
- Complete in-person interview with coordinator
- Selected candidates must complete one-week of pre-construction training and pass drug test

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

## 2019 Hourly Wages

# Operating Engineers

Represented by the International Union of Operating Engineers (IUOE) Locals 302 & 612

Operating engineers operate the bulldozers, motor graders, backhoes, paving machinery and cranes that help to form highways, site infrastructure and skylines. They work mines, dig wells, survey sites, pave and

grind roads, drill and hoist steel and slabs. They also do the final grading as well as maintain/repair machinery. Operating engineers may travel up to 80 miles or more to job sites.

## Minimum Qualifications:

18+

High school diploma or GED\*

Driver's license (DD-14 if necessary for veteran credit)

Social Security card or I-9 verification

Proficient in English

Clean drug test

Pass physical exam

Complete math and reading tests

\*Diploma waiver granted for applicants who can provide documentation that they've worked at least two years in construction. Waiver also requires a minimum of 80% on math and reading tests.

## Application Process

Applications due in November for selection and training the following spring

Applications are available at [www.oetraining.com](http://www.oetraining.com) or from the training office

Qualified applicants will be notified of time and place to appear for interview

Top applicants are required to complete one-week safety and orientation training in Ellensburg

## Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

# Painters

Represented by the International Union of Painters and Allied Trades (IUPAT) Local 300

Painters first prepare a variety of surfaces (wood, masonry, drywall, plaster, concrete, metal) prior to the application of paint, high performance coatings, waterproofing, fireproofing and decorative finishes.

They then apply decorative and protective finishes in residential and commercial settings. Painters work on marine vessels, commercial buildings, residences, and industrial plants and bridges.

## Minimum Qualifications:

18+

Social Security card (or other forms of ID to fulfill I-9 requirements)

## Application Process

Apply at the training office by appointment on Tuesday or Thursday from 10 a.m. to 3 p.m. Applicants are then interviewed and ranked

Applicants must contact the training office on or before the first business day of each month

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

## 2019 Hourly Wages

<b>Starting Apprentices</b>	\$18.69	Wage
	\$9.52	Benefits
	<b>\$28.21</b>	<b>Total</b>

# Plasterers

Represented by the Plasterers and Cement Masons of Washington Local 528

Plasterers provide the interior and exterior finishes on walls of buildings and homes, using primarily hand tools and a wide variety of materials. They make finishes look like wood, stone, block and marble. Machines are also used to apply plastering materials, but handcraft skills are the majority of the work. They

use conventional plaster, veneer plaster, stucco, weather barriers, exterior insulated finish systems, fireproofing and more products. Must be in physical shape and have good balance, eyesight and hearing. Plasterers work indoors and out. They are required to work from height on scaffolding, swing stage and lifts.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Second form of ID (Social Security card or passport)

Clean drug test (administered by the apprenticeship during orientation)

## Application Process

Pick up application in person or complete application online: [www.opcmia528.org/apprenticeship](http://www.opcmia528.org/apprenticeship)

Submit documentation of:

- Minimum qualifications
- Education
- Training
- Work experience

Be prepared to pay \$150 initiation fee if accepted into the apprenticeship

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

## 2019 Hourly Wages

# Plumbers & Pipefitters

Represented by the United Association of Plumbers and Pipefitters Local 32

Plumbers install piping for water systems, drain, waste and vent systems, irrigation, water mains, bathroom accessories and gas. Steamfitters assemble and install pipe to carry water, steam, compressed air,

gases, etc. HVAC/refrigeration fitters install, maintain and service refrigeration, heating, ventilating and air conditioning systems. Marine fitters install and maintain plumbing and pipefitting on ships.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Clean drug test

### Math qualifications:

- Provide transcripts showing a grade of **B or better** in an algebra course taken **within the last year**, either through high school or college; OR
- Results from a college entrance test that shows the candidate could be enrolled in a class at math 90 or higher. These tests can be done at a Washington state community or technical college.

## Application Process

Applications are taken year-round, but check with program for deadlines

Apprentices accepted twice a year, in the fall and summer

Bring documentation of minimum qualifications to the training office

Complete the application in the office from Monday - Friday, 8:30 a.m. to 4 p.m.

Applicants will be scheduled for hands-on testing to be given an interview at a later date

## Need to Succeed

# Sheet Metal Workers

Represented by SMART, the International Association of Sheet Metal, Air, Rail and Transportation Workers, Local 66

Sheet metal is any metal that can be formed into flat pieces. These metals include cold rolled steel, mild steel, stainless steel, tin, nickel and copper. Sheet metal workers cut, roll, bend and shape these pieces into HVAC system ductwork, medical tables, building

facades, etc. After fabricating their products, sheet metal workers install what they created. Sheet metal work also includes service and maintenance of HVAC equipment and testing, adjusting and balancing of HVAC systems.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Proof of auto insurance

Clean drug test

Applicants accepted into the HVAC service technician or HVAC controls technician programs must have a current:

- Washington state electrical training certificate **OR**
- Washington state electrical certification

## Application Process

Applications must be filled out at [www.wwsmjatc.org](http://www.wwsmjatc.org)

Within 30 days, submit:

- Driver's license
- High school transcript or GED scores
- Proof of auto insurance

Applicants will be scheduled for a math and reading exam

Qualified applicants may be scheduled for an interview and minimum qualification screening day prior to being placed on ranked eligibility list (highest score first)

Apprentices are accepted as needed based on:

- Interview score
- Minimum qualification screening day score
- Clean drug test
- Geographic availability
- Timely response to contact from apprenticeship

## Need to Succeed

- Be physically capable to do the work
- Show up on early day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation
