2021 Noise Monitoring Data Maintenance Issue Log

Date	Latest Status	Noise Monitor	Description	Latest Action	Loss of Data (if applicable)
12/4/21	Completed	SEA - SEA	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
12/2/21	Completed	SEA - SEA28	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
12/2/21	Completed	SEA - SEA23	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
12/1/21	Completed	SEA - SEA14	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
11/27/21	Completed	SEA - SEA05	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
11/18/21	Completed	SEA - SEA06	The noise data from this site was not completely downloaded today.	L3Harris Tech was dispatched to site, modem was reset & confirmed ping to modem. The data is now available after being manually downloaded and processed successfully.	
11/18/21	Completed	SEA - SEA05	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
10/1/2021 to 10/15/2021	Completed	ALL SEA Noise Monitors	Radar track point need to be reprocessed, this will delay SEL correlations.	Data was reprocessed and loaded on Nov 12th, Staff confirmed that data was processed successfully.	
10/3/2021	Completed	SEA - SEA12	Unit loss power	Seattle City Light repaired spliced at power pole	Missing data from approx 1:16am on Oct 4 to 10:34am on Oct 13, 2021
10/1/2021	Completed	ALL SEA Noise Monitors	Staff requested noise data to be reprocessed for Sept 25th, data possibility missing correlations	All NMT data reprocessed for this day	
9/4/2021	Completed	SEA - A003	The noise data from this site was not completely downloaded today.	The modem was accessed remotely and rebooted. Vendor confirmed that data was not recoverable for this time frame.	Missing data from approx 4:17am on Sept 4 to 5:23am on Sept 5, 2021
9/2/2021	Completed	SEA - A003	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
9/1/2021	Completed	SEA - SEA05	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
8/31/2021 to 9/3/2021	Completed	ALL SEA Noise Monitors	Annual calibration and preventative maintenance service		
8/18/2021	Completed	SEA - SEA05	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
8/9/2021	Completed	SEA - SEA07	The noise data from this site was not completely downloaded yesterday.	The data is now available after being manually downloaded and processed successfully.	
8/1/2021	Completed	SEA - A003	Staff noted that Vashon portable is not showing the real-time values in PublicVue.	L3Harris rebooted the modem to re-establish connection.	
7/29/2021	Completed	SEA - SEA05	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
7/28/2021	Completed	SEA - SEA15	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
7/27/2021		SEA - A003	Staff reported missing SEL noise data for this site.	After manually downloading, file would still not process. File being sent to manufacture (Larson Davis) for review.	Missing SEL data from approximately 11:42pm on July 26 to 2:32am on July 28, 2021
7/24/2021	Completed	SEA - SEA14	The noise data from this site was not completely downloaded today.	Site visit required to manually reset the modem and communications has been restored.	

Port of Seattle
2021 Noise Monitoring Data Maintenance Issue Log

Date	Latest Status	Noise Monitor	Description	Latest Action	Loss of Data (if applicable)
7/22/2021	Completed	SEA - SEA16	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
7/21/2021	Completed	SEA - SEA25	The noise data from this site was not completely downloaded today	The data is now available after being manually downloaded and processed successfully.	
7/20/2021	Completed	SEA - A003	The noise data from this site was not completely downloaded today.	The site was not responding to communication attempts. Vendor accessed the modem remotely and rebooted. Communications to the noise monitor were restored and data has been downloaded and processed.	
6/13/2021	Completed	SEA - SEA4B	Staff reported that it appears not all flights are being recorded at SEA4B (no SEL and aircraft LEQ on a series of days when flights are visible at location)	L3Harris Tech visited site. Faulty microphone was replaced.	Missing data from approximately 11:31pm on June 13 to 9:28am on June 30, 2021
5/21/2021	Completed	SEA - A003	The noise data from this site was not completely downloaded today.	The data collection was turned off at this site. Turned collection back on.	Missing data from approximately 8:17 on May 19th to 6:00am on May 21, 2021
5/21/2021	Completed	SEA - SEA15	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
5/15/2021	Completed	SEA - B002	Staff noticed gap in data, requested second download of data.	Raw file downloaded again with same missing data results.	Missing data from approximately 12:13am on May 15 to 4:11am on May 16, 2021
5/7/2021	Completed	SEA - SEA4B	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
5/7/2021	Completed	SEA - SEA15	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
4/26/2021	Completed	SEA - SEA25	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
4/24/2021	Completed	SEA - SEA16	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
4/22/2021	Completed	SEA - B002	The battery voltage at this site has been dropping and is now not responding to connection attempts.	L3Harris was able to download partial data for the 20th and 23rd, however missing full days data for the 21st and 22rd, due to the Portable NMT power being disconnected at the site (note that the Portable NMT was unplugged at the site. Staff secured the power connection with a zip tie).	Missing data from approximately 12:17am on April 20th to 9:27am on April 23, 2021
4/16/2021	Completed	SEA - SEA25	SEA25 in PublicVue is having problems. Can you please investigate.	Communications to the noise monitor have been restored and the available missing data has been downloaded and processed.	
4/6/2021	Completed	SEA - SEA16	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
4/1/2021	Completed	SEA - SEA23	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
3/30/2021	Completed	SEA - SEA19	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
3/9/2021	Completed	SEA - SEA14	The noise data from this site was not completely downloaded today.	Communications to the noise monitor have been restored and the available missing data has been downloaded and processed. Unit was manually rebooted.

2021 Noise Monitoring Data Maintenance Issue Log

Date	Latest Status	Noise Monitor	Description	Latest Action	Loss of Data (if applicable)
3/3/2021	Completed	SEA - SEA25	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
2/23/2021	Completed	SEA - SEA20	The noise data from this site was not completely downloaded today.	The data is now available after being manually downloaded and processed successfully.	
2/5/2021	Completed	SEA - SEA06	The noise data from this site was not completely downloaded today.	Communications to the noise monitor have been restored and the available missing data has been downloaded and processed. Site visit required to manually reboot modem.	
2/2/2021	Completed	SEA - SEA25	Staff noticed gap in data, requested re-download and processing of data.	Data downloaded, missing data not available. Site visit to manually reboot unit.	Missing data from approximately 12:06 pm on 1/25 to 7:18 am on 2/2/21
1/27/2021	Completed	SEA - SEA23	The noise data from this site was not completely downloaded today.	The data has been successfully downloaded and processed and is now available.	
1/13/2021	Completed	SEA - SEA22	The noise data from this site was not completely downloaded today.	The data has been successfully downloaded and processed and is now available.	
1/6/2021	Completed	SEA - SEA15	The noise data from this site was not completely downloaded today.	The data has been successfully downloaded and processed and is now available.	
1/5/2021	Completed	SEA - SEA16	The noise data from this site was not completely downloaded today.	The data has been successfully downloaded and processed and is now available.	
1/2/2021	Completed	SEA - SEA18	The noise data from this site was not completely downloaded today.	The data has been successfully downloaded and processed and is now available.
